Evergreen Trees

Concolor Fir

Abies concolor

Height: 40-50'
Width: 20-30'
Soft, flattened pale blue-green needles. Best in rich, medium moisture, well drained soils.

Norway Spruce

Picea abies

Height: 50-70'
Width: 20-30'
Dark green needles. Greenish purple cones in youth become light brown at maturity.

White Spruce

Picea glauca

Height: 30-60'
Width: 15-25'
Short bluish green needles. Also known as Black Hills Spruce.

Serbian Spruce

Picea omorika

Height: 35-50'
Width: 15-25'
Slow growing with slender habit. White bands on the underside of needles create a bicolor effect.

Colorado Blue Spruce

Picea pungens

Height: 40-60'
Width: 20-35'
Large, slow growing dense conifer with blue-green needles. Adaptable to hot, dry conditions.

Baby Blue Spruce

Picea pungens 'Baby Blue'

Height: 25'
Width: 8-10'
Very blue, short needles. Even slower growing and smaller in size making it desirable to smaller spaces.

Fat Albert Blue Spruce

Picea pungens 'Fat Albert'

Height: 10-15'
Width: 10-12'
Blue-green needles. Pyramidal form with a spread at the base that is nearly equal to the height of the tree.

White Pine

Pinus strobus

Height: 50-80'
Width: 20-40'
Soft, light green foliage. Tall distinctive, fast growing conifer with horizontal branching.

Dark Green Arborvitae

Thuja occidentalis 'Nigra'

Height: 20-30'
Width: 5-10'
Large pyramidal shrub with dark green foliage. Symmetrical and shears well.

Emerald Green Arborvitae

Thuja occidentalis 'Smaragd'

Height: 10-20'
Width: 3-5'
Compact pyramidal shape with bright emerald green foliage. Slower growing with excellent heat tolerance.

Techny Arborvitae

Thuja occidentalis 'Techny'

Height: 8-10'
Width: 4-5'
Broadly pyramidal shape with dark green foliage. Excellent for screens and tall sheared hedges.

Canadian Hemlock

Tsuga canadensis

Height: 40-60'
Width: 25-30'
Soft, feathery foliage. Will not tolerate wind and drought. Prefers a protected and moist location.
